MOHAMMED MINHAJ MAHMOOD

Data & Business Automation Analyst | Applied Research & AI Testing

Hyderabad, India | Open to Relocate | +91 9908597337 | minhajmuhammad229@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Computer Science (Data Science) graduate with experience in website management, data automation, and AI feature testing. At PHFI, I have worked on the DOHaD India website and a research data review tool, while at Ejadah AI Labs, I have tested features for Sanad AI. I also run Alif Growth Media, helping local businesses with website development and digital workflows.

EXPERIENCE

Business Analyst & AI Automaation, Alif Growth Media | March 2026 – Present | Alif Grwoth Media

- Developed structured service workflows covering website design, digital presence and customer communication automation for local businesses.
- Worked on translating business needs into practical digital solutions and organized service delivery processes.

Web Development & Data Automation Intern | PHFI Sep 2026 – Present

- Maintained the DOHaD India website and set up website deployment workflows.
- Developed a Python based application for research data review and automation.

AI Feature Tester | Ejadah AI Labs — Sanad AI | Oct 2026 - Present

- Tested AI features, identified issues, and shared feedback to improve functionality and user experience.

PROJECTS

DOHaD India Website Management & Deployment | PHFI | GitHub | Live Dashboard

- Updated website content, managed deployment, and connected the website to the organisation's accounts.
- Set up GitHub, Vercel, MongoDB, and Cloudinary for website management and future updates.

Research Data Automation Studio | PHFI | GitHub | Live Dashboard

- Developed a Python based application to support research data cleaning, filtering, quality checks, and visualization.
- Packaged the application with setup instructions for local use and team review, deployed live.

Vision-Based Terrain Classification (Academic team project, 2025–2026) | GitHub | Live Dashboard

- Team project classifying terrain type (Desert, Forest, Mountain, Plains) from images, using MobileNetV2 for feature extraction with classical classifiers. The choice was deliberate: lightweight enough to eventually run on constrained hardware like drones or rovers.

SKILLS

Programming: Python, SQL, JavaScript, TypeScript
Data Analysis: Pandas, NumPy, data cleaning, exploratory data analysis, data quality checks, data visualization
Machine Learning: Scikit-learn, XGBoost, SHAP, MobileNetV2, TensorFlow
Web & Automation: Next.js, React, Streamlit, Git, GitHub, Vercel
Analytics & Business: Power BI, SAP Datasphere, requirement analysis, market research, workflow automation, growth strategy

CERTIFICATIONS

Deloitte Australia: Data Analytics Job Simulation, Forage (certificate)
SAP: Exploring SAP Datasphere (certificate)
Scrum Fundamentals Certified (SFC™), SCRUMstudy (certificate)
Data Analysis with Python, IBM SkillsBuild (certificate)

EDUCATION

B. Tech, Computer Science Engineering (Data Science), Vaagdevi College of Engineering, JNTUH, Warangal (2022–2026)

Languages: English (Professional) · Telugu (Native) · Hindi (Conversational) · Urdu (Native)
